

# Cogito Warehouse Data Dictionary (HTML distribution)

## *README*

### How to use

1. Open **index.html** in the directory containing the data dictionary files.

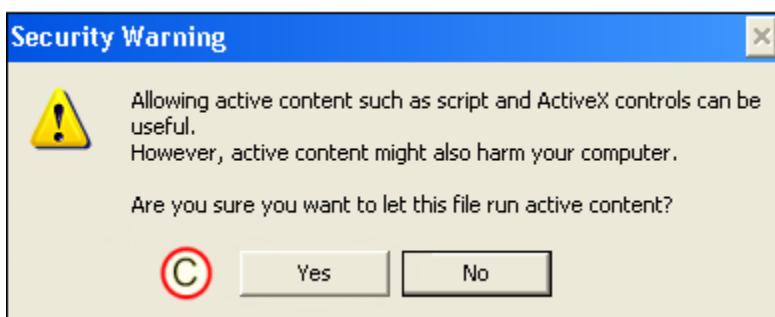

2. **IE9 only.** You might see a security warning at the bottom of the web browser. Click **Allow blocked content** to continue.

3. **IE8 only.** You might see a security warning at the top of the web browser.

- A. Click the security warning.
- B. Click **Allow Blocked Content**. The Security Warning confirmation appears.
- C. Click **Yes**.

## Additional notes

- The data dictionary *won't* work when opened from a network location. Use the data dictionary only from a local disk.
